

## **Roles of Instructional Support Teachers at STM**

- Provide support to all students.
- Assist teachers with implementation of IST recommendations.
- Assist teachers with monitoring the effectiveness of the interventions recommended from the IST.
- Collaborate with classroom teacher to identify needs of students (i.e. struggling, lack motivation, appear to be bored, exhibit challenging behavior, organization) and work with classroom teacher to develop a plan of intervention.
- Make recommendations to initiate IST process if necessary.
- Collaborate with classroom teacher to identify curricular needs across grade levels.
- Pilot activities, strategies and interventions with small groups to determine effectiveness, then assist teachers with implementation in large group when deemed effective.
- Assist teachers with quarterly accommodations checklists.
- Provide lists to classroom teachers of students in their classes who have documentation to receive specific accommodations.
